

Reliable Hosted Exchange

A **simple** Way to Manage IT.

Overview

Hosted Exchange, the popular Microsoft® email and productivity solution, is now available in a new reliable, resilient and feature-packed version. In addition to email, calendar and document sharing, Hosted Exchange 2013 brings you a streamlined Outlook Web App interface with enhanced touch for mobile users, the possibility to gather all contacts from various locations (Facebook, LinkedIn, address books, etc.) in one place, and a convenient tool that memorizes your behavior for easier, faster searches.

What is Hosted Exchange?

Exchange is a high-end **business email and collaboration** solution that we host on a top-of-the-line infrastructure maintained by Microsoft-certified engineers. We provide the latest Outlook applications that allow rich email creation, management and archiving, as well as calendar, tasks, contacts. With the addition of ActiveSync **mobile synchronization**, you can access your emails in real-time on your smartphone through PUSH technology. Hosted Exchange is quick and easy to deploy, and you can add or remove users at will on our user-friendly control panel.

The Hosted Model

As technology grows more sophisticated and IT departments are asked to **do more with fewer resources**, the hosted software model is becoming a preferred deployment option for many businesses. This approach proves to be more **cost-effective** than traditional alternatives as it requires **no hardware investment** and **no additional IT resources**. Over are the days of complex deployments and high upfront and maintenance costs: hosted software are **quick to deploy** and come at a **fixed price per user per month**. Additionally, your business-critical applications are no longer subject to in-house network stability and security concerns. AllianceMail uses an entirely **clustered and redundant architecture** held in fully certified data centers **to provide 99.999% guaranteed uptime**.

Mobility

- Stay connected to your inbox thanks to real-time synchronization on your iPhone/iPad, Android, Windows Mobile or any smartphone.
- Get more done when you're on the move

Flexibility

- Securely access your inbox through the full-featured and familiar Outlook Web App (OWA) from virtually any platform, web browser, or mobile device.

Efficiency

- Share calendars or distribution lists with clients, just as if they were part of your organization.

Outlook 2013

Benefit from many improvements:

- Cleaner, uncluttered look
- Faster emails and quick deletes
- Easier access to contact information from social networks
- Forgotten attachment reminders
